

This exploded perspective view illustrates the assembly of a medical device, likely a catheter or probe. The components are labeled with numerical callouts:

- 112, 120, 105, 110, 165, 220, 210, 205, 200, 215, 700, 600:** These labels point to the main body or housing of the device, including internal structural elements and the outer casing.
- 175, 145, 100, 245, 230, 520, 500, 300, 310, 510, 400, 315, 415, 410, 420:** These labels point to various internal components, including a central shaft or tube, connectors, and internal structural parts.

This diagram shows the front cover assembly in an exploded perspective view. The main housing (1) is shown with its internal components, including a speaker grille (256) and a central opening (257). A separate front cover (255) is shown below the main housing, with a hinge mechanism (260) and a latch (300) visible. A small circular component (250) is also shown near the hinge.
